TRAILS END RALLY

The average speed for this rally is 30 mph and the distance is 48.5 miles. There are no check points and the rally will be run without the benefit of any timing devices. The proper speed limits will enable you to finish with the proper average speed. Contestants who average over this speed will be disqualified. When in doubt about the speed limit go 25 mph. There are no mud roads except where indicated in the instructions. Where the road bends sharply and there is a mud road going straight, follow the road around the bend. The rally will be counted with the Gymkhana to determine the first three places. Good luck!

- 000.0 / From Wanamaker's parking lot, turn left
.4 / Turn left at Alapocas sign
1.25 / Stop sign-turn left
